Leather Loop Cutting Boards

Designed and Manufactured in Costa Mesa, CA by Sean Woolsey

DESCRIPTION

We make these leather loop cutting boards out of scraps from the tables that we make, letting no wood go to waste. No two are alike.

The cutting boards are available in either Black Walnut and Sugar Maple. They are all various sizes depending on the scraps that we used, with a leather loop for hanging in your kitchen, and a brass pin to lock in the leather. They are each laser engraved with the Sean Woolsey studio logo. We finish each one with a mineral oil that is food safe and smells like heaven with natural oils

SPECIFICATIONS

Product Materials

Walnut or maple
