

ACCESSORIES - CANDLES + SCENTS

Candlestix (Set of 3)

Designed and Manufactured in Brooklyn, NY by Avandi

DESCRIPTION

Candlestix can be used as candle holders, table centerpieces or paperweights. Each has a reclaimed leather piece on it's base to add traction and a dimple on the top for easy stacking. The set of three modular brass Candlestix are playfully modern sculpture-like objects that love holding soft beeswax candles.

Please note: Raw brass will naturally turn over time. If you prefer a bright finish, use a brass polish available at most hardware stores.

SPECIFICATIONS
