

#### TABLES - CONSOLE

## Crescent Console

Designed and Manufactured in Brooklyn, NY by Kin & Company

#### DESCRIPTION

Primary circles are broken into sinuous steel arcs to form the base of the Crescent Console. They are then transcribed to the surface, leaving a sweeping line that separates the stone slabs. The subtle color and texture variations of the all-black piece—blackened steel, Nero Marquina marble, and Absolute Black granite—conjure a mysterious allure.

Shown in steel with a black oxide patina  
Two-part polished marble top

Made to order in a variety of sizes, materials, and finishes
