

MIRRORS - WALL

Isogrid Mirror

Designed and Manufactured in Long Island City, NY by Hyfen

DESCRIPTION

ISO Series is designed and handmade by Jojo Chuang in Texas for Hyfen. IsoGrid Mirror is an extension from Jojo Chuang's distinctive Isometric series. A visual language, which allows the designer to develop three-dimensional objects with false perspective that can only exist in two-dimensional surface, bases on isometric grid is created.

The diamond/cube-shaped mirror is the basic unit of the isometric grid. Additionally, the reflective surface in the grid system extends horizontal depths, breaks two-dimensional views into three-dimensional space with this unique experience.

SPECIFICATIONS
