

TABLES - CONSOLE

Rockport Console Table

Designed and Manufactured in Providence, Rumford, RI by Studio DUNN

DESCRIPTION

Stepped and tapered legs elevate the Rockport Console's sizable tabletop to a plane that will uplift your entire space.

The pieces in the Rockport Collection play with design conventions in line, proportion, and angle. Handcrafted from sustainable American hardwoods, traditional and modern woodworking techniques are used to build each piece. Every element is sanded with meticulous care, then a durable finish is hand-applied to highlight the raw beauty of the wood's grain. Custom dimensions available.

Customizations will effect final pricing.
