Umbra (Microcosmos Collection)

Designed and Manufactured in Brooklyn, NY by Calico Wallpaper

DESCRIPTION

The Microcosmos Collection by BCXSY is a captivating journey through dimensions and perception. Boaz and Sayaka have drawn on childhood encounters with the craft of bubble prints to create naturally occurring figures that are evocative of the incredible universes seen through the lenses of a microscope. The handmade artwork has been digitally painted and blown up to a scale previously impossible, rendering depth, details and colors with expressive precision. The imagery blends characteristics of the handmade and technological, opening a door to fascinating colors and patterns and transforming these into the whimsical world of Microcosmos.
