## Lounah Flat-Weave Rug

Designed and Manufactured in Brooklyn, NY by Aelfie

#### DESCRIPTION

This rug is like your one friend from high school who acted like a sociopath and did everything so wrong and then eventually got their shit together and you can't [expletive] believe it. The old brilliant spark is still there, they still occasionally see lysergic trails, but it's when they're bending over to tie their kid's shoes with those light up roller wheels. Everything is still fabulous with them but just on an entirely different level.

This rug looks good with a brass tea set.

Aelfie rugs are designed in Brooklyn and handmade by artisans in India.

Rug Pads available at an additional cost.
