

#### FURNITURE - STORAGE

## Drift Bar

Designed and Manufactured in Brooklyn, NY by Banner

#### DESCRIPTION

The Drift Bar's angled facade is split into two sections that provide space for everything a well-stocked bar needs. On one side, a glass door with an elongated custom handle encloses a large, interior-lit cabinet for spirits, while the other holds a pair of storage drawers and a display shelf for wine glasses and tumblers.

With drawer pulls made of dark, worn brass and hidden illumination installed in its base and cabinet, the Drift Bar is brought to life by its rich details.

Shown in sandblasted Ash with custom blackened Brass hardware and Bronze Etched Glass
