

LIGHTING - CEILING

11 Piece Frame Cluster, Plated

Designed and Manufactured in Seattle, WA by Iacoli and McAllister

DESCRIPTION

This cluster contains 11 Frame Lights - 5 medium (12"x12"x12") and 6 small (8"x8"x8").

SPECIFICATIONS

Material/Finish

Brass, copper or chrome plated steel.

Installation

Each frame light is shipped individually. A custom canopy and detailed installation instructions accompany the piece to insure a flawless installation.

Bulb Info

A 3-inch 60 watt white globe incandescent bulb is provided for each fixture. Replacement bulbs can be found at grocery and hardware stores. When using a 100 watt bulb, we recommend installing on a dimmer. With no dimmer we recommend using up to a 60 watt bulb. Bulbs are only included in orders shipping to the U.S. and Canada. We apologize to our international clients for any inconvenience.

Electrical Info

Lights can be wired for US (UL), Canadian (CUL), UK or Australian applications. Please specify.

Technical Specifications

United States: 120V E26 Socket Medium Base.

European Union & Australia: 120V E27 Socket Medium Base
240V available, please inquire.

Made in the U.S.A.

All of our pieces are made in the United States by human hands.

*Uncoated brass and copper will get darker, duller and richer with time. To restore its shine, you can either use a polishing cloth or a polishing compound found at hardware stores.

LEAD TIME

6-8 weeks
