

#### ACCESSORIES - RUGS

## Morgan Flat-Weave Rug

Designed and Manufactured in Brooklyn, NY by Aelfie

#### DESCRIPTION

This rug is like the MVP of the Aelfie team. It is edgy yet upscale, so it works for pretty much everyone. No one will not like it. Like, you could invite the entire A\$AP Mob over to your house, offer them all house slippers and drink slanted spiced apple cider with them around this rug. They would be like, "yo, I like your rug. Very RVRE." Everyone else would like your rug too, who isn't A\$AP, but that's not as fun to think about because it is only fun to think about fun things. This rug can be your fun friend while you are doing your taxes like the grown ass person you are trying to be but it will remind you that everything in your life is basically a total win and you have gotten to the point where taking care of teeth and taxes are boss status.

Aelfie rugs are designed in Brooklyn and handmade by artisans in India.

Rug Pads available at an additional cost.
