

LIGHTING - CEILING

Lina 12-Light LG Chandelier

Designed and Manufactured in Brooklyn, NY by Rosie Li

DESCRIPTION

Inspired by 1960s Italian lighting, Lina is an all-brass lighting system designed to create airy geometric fixtures. Each welded brass sphere joins with solid brass tubing and minimal fastener hardware to form strikingly simple hanging fixtures and wall mounts. The series' modular construction system allows the studio to explore a variety of Lina shapes and sizes, lending it much versatility for custom projects. Each piece is made to order and assembled in Brooklyn, NY.
