

LIGHTING - TABLE

BUBBLY 01-Light Table Lg

Designed and Manufactured in Brooklyn, NY by Rosie Li

DESCRIPTION

Bubbly is an effervescent, all-brass lighting system inspired by soap bubble clusters and Newton's laws of universal gravitation. The modular system comprises discrete brass spheres, meticulously assembled to create organic forms reminiscent of biochemistry models and geological formations. Bubbly fixtures strike a lively balance between chaos and structure. Each piece is made to order and assembled in Brooklyn, NY.
