

MIRRORS - WALL

The Starting Point Mirror

Designed and Manufactured in Portland, OR by Base Modern

DESCRIPTION

The Starting Point Mirror is minimalist in form and luxurious in form and function. It starts with a single piece of steel. The metal is laser cut and formed to create a cradle for the mirror, and give a convenient shelf for the onlooker. The gray tinted mirror is hand cut and polished. It offers a soft reflection as it rests in its complementary frame. This stunning piece will bring an air of sophistication and tranquility to any space; a starting point.
