

FURNITURE - SEATING

Windsor Bench

Designed and Manufactured in Williamsburg, Brooklyn, NY by Moving Mountains

DESCRIPTION

Exaggerated proportions, unexpected curves, and matte lacquer finish give this Early American form an updated contemporary feel and sophisticated charm. Bench can be used in the entry way or in the dining room and can seat 2-3 persons comfortably. Constructed of solid pine and maple, the bench features hand carved seat and crest. All turnings are hand lathed and legs are set with traditional through tenon joinery for increased stability.
