

ACCESSORIES - PLANTERS + VASES

The Lowline - Edition

Designed and Manufactured in Williamsburg, Brooklyn, NY by Plant-In City

DESCRIPTION

Crafted from locally sourced timber, the wooden versions make the most of every inch, from the heartwood to the live edge, bark and all. Each MINI is then matched with various components that complement their materiality and style,

This edition is our simplest and arguably the most sophisticated version that features a charred blackening, Shou Sugi Ban process, of burning wood to protect wood from decay, pests, wind, water, sun and fire.
