

FURNITURE - SEATING

Thin Stool

Designed and Manufactured in Brooklyn, NY by Kin & Company

DESCRIPTION

Like a tiny creature bending over, brushing her toes on the floor, the Thin Stools challenge our notion of strength, urging viewers to ask, Will this support me? At times minimalist and others quite playful, each razor-thin piece is a continuous steel plate that responds to the sitter's body.

Made to order in a variety of sizes, materials, and finishes.
