

LIGHTING - WALL

## The Wally

Designed and Manufactured in Brooklyn, NY by Juniper

### DESCRIPTION

The Wally sconce recaptures the nostalgic narrative encapsulated in the original M Lamp's modern interpretation of 19th century miner lamps. While alluding to vintage aesthetics, the Wally embraces the requirements of a modern and functional wall fixture. The use of standard high-contrast decals expand the versatility of this fixture and can take its function from an energetic light signal to a playful do-not-disturb sign. Contact our sales team for custom decal application.
